Pink Lawn, White Yoke, Revers and Collars.

Dainty separate waist of pink lawn with a deep yoke of white. Revers and collar of white have a pink hem.

One of the charms of this separate blouse is its color scheme. The model is fashioned from pink lawn, but the deep yoke is of white, with collar and revers of the same. pink hem is hemstitched to the collar and revers, giving the necessary touch of color after a sudden "break" from pink to white in the waist and yoke. In medium size the design requires 2 yards 36-inch pink and %yard 36-inch white lawn. Either pink or white may be used for the arrow ruffle that outlines the deep

Since a contracting material is ed for the yoke, unusual care must be taken with the cutting of the

waist. Note the part of the cutting guide which shows the placement of yoke and revers. This shows that the pattern must be placed on a lengthwise thread of an open width of material. Now, this rule must be followed in using white lawn, just as if the waist were being developed entirely in pink.

The sleeve and cuff, however, are laid on an open width of pink material, after which the lawn is folded to cut the remaining parts of the waist. A strip of lawn long enough to accommodate the back yoke will have to be cut from the white material and the yoke placed on the lengthwise fold as illustrated, with the collar included. The back of waist is laid on a lengthwise fold of pink lawn, while the front and trimming piece are placed on a lengthwise thread.

The underbody requires 1 yard of 36-inch material and this is folded as also shown in the cutting guide. Place the back directly on the length wise fold, then put the peplum and front on a lengthwise thread.

With the various pieces properly placed, the home dressmaker may that there will be no waste of material, nor mistake in the work. proceed with the cutting, confident

The smartest of the new blouses feature deep yokes which are made of all kinds of materials in contrast to the waist proper. Herein lies a strong hint for the dressmaker who has a genius for combining small quantities of goods into a delightful

#### ANOTHER IN HER PLACE.

They say if our beloved dead Should seek the old familiar place, ome stranger would be there instead And they would find no welcoming

face. Believe them not. Ah, those who say Our best beloved would find no place Have never hungered every day Through years and years for one dear face."

They laugh at war who never felt a sword thrust. They sneer at the foolshness of being jealous who never felt its pangs. In the case of lovers who have disagreed, or, perhaps, have had a downright quarrel and parted, the girl, at least, wonders, anxiously, if he makes no attempt to be reinstated in her favor, whether or not he has put another in her place

It is one of the hardest ordeals a girl can face to find her surmise is true. She worries secretly over the thought whether she should go among the friends they were wont to visit together or remain away, escaping the embarrassment of meeting him with a new sweettheart. Her friends counsel her to encourage a new admirer. Nine girls out of ten are too honest to resort to this, believing it to be dishonbrable to encourage a man's suit when neither her heart nor her wishes re-

The girl is indeed a heroine in real ife who can school herself to meet a ormer lover face to face, hold out her hand in greeting and smile that he may think she does not care. When it omes down to cold, hard facts she hould not care, realizing that a heart that could be shifted from one woman another as easily is not worth grieving over, not worth a tear.

Food provided for the family table deserves the careful thought of every housewife. Do you use thought when buying baking powder?

The quality of cake, biscuits and all quickly raised flour foods depends largely upon the kind of baking powder used.

Royal Baking Powder is made from cream of tartar derived from grapes. It is absolutely pure and has proved its excellence for making food of finest quality and wholesomeness for generations.

Royal Baking Powder contains no alum nor phosphate.
